LOWARA LAUNCHES NEW SUBMERSIBLE GRINDER PUMP FOR RESIDENTIAL APPLICATIONS

An efficient new grinder pump from Lowara is set to clean up in the domestic sewage market. The new DOMO GRI has been design to deliver domestic sewage, liquids containing solids or fibres, and wastewater from residential buildings to the sewer mains or a pressurized sewer network.

Constructors face a number of challenges for which DOMO GRI is the ideal solution. DOMO GRI comes into its own in farm areas, small villages and homes built in remote areas where the conventional gravity sewage network is too expensive to commission.

The pumps are particularly effective where the sewer main is located at high level or where the ground level is variable. It is also a cost-effective option where the installation is far from the sewer main, such as in holiday homes and camping grounds

DOMO GRI SERIES – IDENTIFICATION CODE

DOMO GRI 11 6 T SG

DOMO GRI SERIES OPERATING CHARACTERISTICS AT 50 Hz

HYDRAULIC PERFORMANCE TABLE

PUMP TYPE	OUTPUT POWER		Q = DELIVERY											
			l/min	0	15	30	40	50	60	70	80	90	100	110
			m³/h	0	0,9	1,8	2,4	3	3,6	4,2	4,8	5,4	6	6,6
			H = TOTAL HEAD METRES COLUMN OF WATER											
DOMO GRI 11 (SG)	1,1	1,5	25,0	23,5	21,7	20,5	19,3	18,0	16,6	15,2	13,5	11,7	9,5	
DOMO GRI 11 T														

These performances are valid for liquids with density $\rho = 1,0 \text{ kg/dm}^3$ and kinematic viscosity $\nu = 1 \text{ mm}^2/\text{s}$.

RANGE INTEGRATION

DOMO GRI is designed to complete the ITT Lowara Residential sewage pump range named DOMO with a reliable non clogging solution.

DOMO GRI is also available assembled into the ITT Lowara sewage lifting stations range named Singlebox and Doublebox.

HIGHLY RELIABLE GRINDER SYSTEM

DOMO GRI features a completely new, extremely efficient and highly reliable grinder system.

The grinder is able to macerate all the solids present in the sewage into small pieces able to pass through the pump impeller and smaller discharge pipes (DN25).

Not only is the risk of clogging or blockage extremely low, contractors are able to minimize investment costs by using smaller and flexible pipes or where such pipes are the only option.

The grinder system is easily replaceable to ensure that any downtime is minimised and that maintenance is easy and quick. For more details on Lowara's DOMO GRI grinder pumps please visit or call your local Lowara Sales offices.

Lowara

ITT Lowara part of ITT Corporation and headquarters of "Residential and Commercial Water - EMEA".

World leading in offering high reliable fluid handling solutions for Building Services, Irrigation and Industrial applications. We provide a complete range of high quality pumps, packaged systems and controls and are specialized in engineering and manufacturing stainless steel products.

ITT Lowara is headquartered in Vicenza, Italy and operates in more than 80 countries across the world with own plants in Italy, Austria, Poland and Hungary. The company has 1.300 employees and generated 2008 sales exceeding \$440 million. ITT Lowara is wholly owned by the ITT Corporation of White Plains, New York, and is the EMEA headquarter of ITT's Residential and Commercial Water division. ITT Corporation is a high-technology engineering and manufacturing company operating on all seven continents in three vital markets: water and fluids management, global defense and security, and motion and flow control. ITT Corporation generated 2008 sales of \$11.7 billion
